

Masjid360 Android App

Download & Installation Guide

Welcome to Masjid360

Thank you for choosing Masjid360 – One Platform. Many Muhallas. Stronger Ummah. Follow the steps below to install the Android application on your device.

Step 1: Download the App

Click the 'Download Android App' button on www.masjid360.in to download the latest Masjid360 APK.

Step 2: Allow Installation

If prompted, open Settings and enable 'Allow installation from this source' for your browser or file manager. Return to the installer.

Step 3: Install the App

Open the downloaded Masjid360.apk file, tap Install, wait for the installation to complete, then tap Open.

Step 4: Register or Login

Create a new account or sign in using your registered mobile number or email address.

System Requirements

- Android 7.0 (Nougat) or above
- Active internet connection
- Approximately 50 MB of free storage

Permissions

Masjid360 may request access to:

- Camera – Profile photo and document upload
- Photos & Media – Upload images
- Location – Find nearby Masjids
- Notifications – Prayer reminders and announcements

Security Notice

Download the application only from the official Masjid360 website (www.masjid360.in) to ensure you receive the authentic and latest version.

Troubleshooting

- Enable 'Install Unknown Apps' if installation is blocked.
- Ensure your device is running Android 7.0 or later.
- Download the latest APK if installation fails.
- Restart your device and try again.
- Verify sufficient free storage.
